DIVERSITY CREW

Dinaz is an analytics and research expert who combines her passion for data and people to help problem solve, strategize, and generate outcomes for clients. Dinaz is an experienced data scientist who has worked for several Fortune 500 clients and international non-profits to provide data driven solutions to attract and retain underserved consumers.

Dinaz was an innovative analyst and lead research methodologist at Nielsen and successfully worked on projects for Walmart, Verizon, Google, Comcast and Bank of America. At the Boy Scouts of America, Dinaz served as a Diversity & Inclusion leader.

Born and raised in India, Dinaz moved to the United States in the early 2000's to pursue her higher education. Dinaz has a master's degree in Applied Research from Boston University and University of Pune (India). She has been a board member for several professional associations, a proud mother of three children and enjoys playing Throwball, traveling and creative arts.
